

Vipotor Withdrawal process

Step 1: Open the vipotor official website

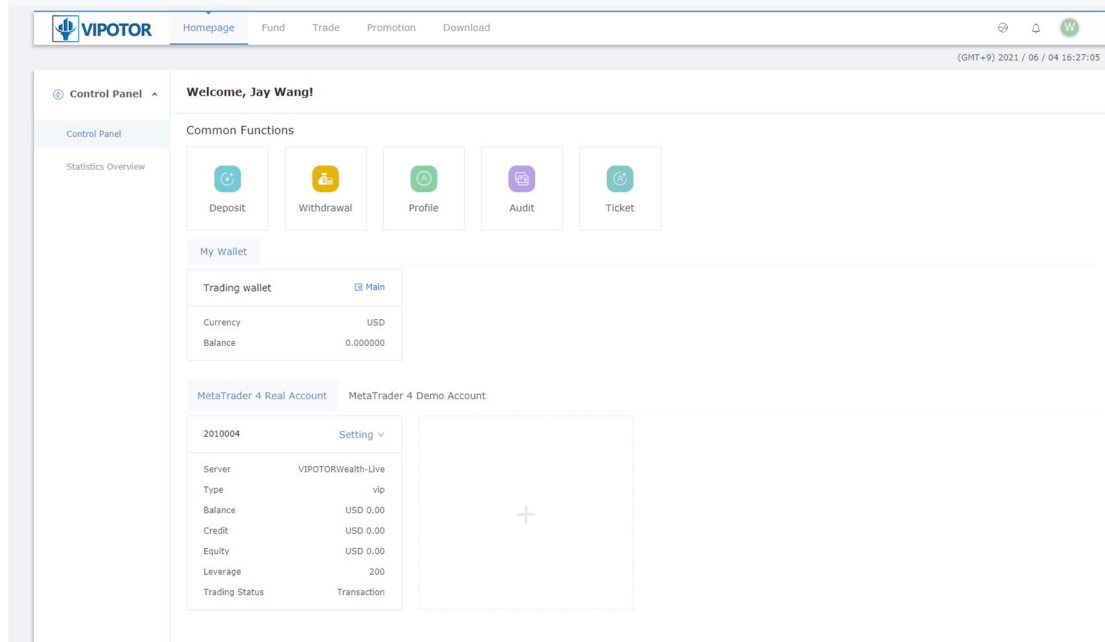

<http://www.vipotor.com/>, click on the head navigation "Member Login" as shown below:

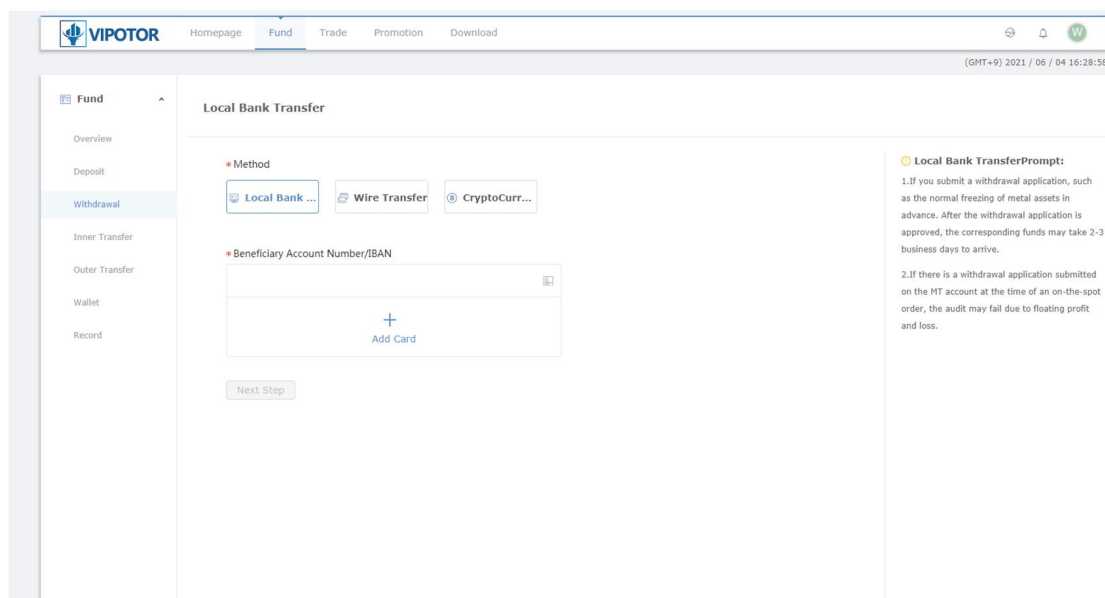

Step 2: Enter the customer center login page, fill in the account and password, and enter the customer center.

The image shows the login page of the Vipotor customer center. At the top center is the Vipotor logo. On the left side, there is a dark panel with the heading "Real Account" and the text: "You are currently opening a live account. Please fill in the information on the right." Below this is a "Return Login" link and a security statement: "We will carefully protect your information". On the right side, there is a white login form. It includes a "Language" dropdown menu. The form fields are: "First Name" (placeholder: "Please enter first name"), "Last Name" (placeholder: "Please enter last name"), "Country" (dropdown menu showing "Cambodia"), "Phone" (with a "+855" country code dropdown and "Phone" placeholder), "Email" (placeholder: "Please enter email"), and "Password" (placeholder: "Please enter password" with a toggle eye icon). At the bottom of the form is a red "Next Step" button.

Third step: After entering the home page of the Customer Center, click the frequently used function "Withdrawal".

Step 4: Enter the "Withdrawal" page, fill in the withdrawal amount and confirm that the bank card information is correct, then click "Submit" to complete the withdrawal application.

***If the withdrawal fails, the funds will be returned to the account**

Note:

1. To apply for withdrawal for the first time, please confirm that the real-name authentication has been completed and the withdrawal bank card has been bound. Those without real-name authentication and bank card binding cannot submit a withdrawal application.

2. The company's deposits and withdrawals are exempt from handling fees, except for the following two situations:

(1) If more than 50% of the total deposit amount of the customer has not been used for opening a position transaction, or no position opening transaction has been opened after the most recent deposit, the company will deduct 6% of the withdrawal amount as a handling fee when applying for withdrawal.

(For example, if the customer deposits US\$1,000 and has never used it for trading, and applies for a US\$1,000 withdrawal, the company will deduct $1,000 \times 6\% = \text{US\$}60$ as a handling fee).

(2) If the customer's single withdrawal is less than US\$50, the company will charge a handling fee of US\$3.

3. According to regulatory requirements, if the withdrawal instructions are less than 24 hours from the last deposit, the company will review and process it after 1 working day; the application must be processed after 24 hours between two withdrawals.
